## Interpon Metaplex Commercial - Performance warranty systems

### Interpon Powder Coatings is committed to partnering with our customers for success.

Interpon Powder Coatings are dedicated to the development of innovative performance solutions for the Australasian powder coat finishing industry. Utilising our extensive global powder coat technology platform and proven protection solutions we have developed a range of warranties to suit almost every environment.

Interpon Metaplex Commercial system offers a cost effective finish solution to a range of appropriately prepared metal substrates. Approved application standards have been developed and exhaustively tested to ensure long lasting protection.

The Interpon D suite of premium durability product systems can be applied to an extensive range of appropriately prepared metal components such as:

- infrastructure components
- agricultural equipment
- architectural metalwork
- balustrades
- fencing
- structural steelwork
- transportation equipment
- building components
- motor vehicle chassis
- chassis components
- mobile equipment

“

Proven protection solutions for metal applications

”

When Interpon 200 or Interpon D2015 products are applied by an Interpon Metaplex Commercial Accredited Applicator, the Metaplex Commercial System will attract a 10 or 15 year color and film integrity warranty depending on topcoat selection.

### As an Interpon Metaplex Commercial Accredited Applicator we offer our partners:

- ✓ **15 years color and film integrity warranty\* when using Interpon D2015 products**
  - enhanced product performance with our class leading exterior ultra durable Interpon D2015 products,
- ✓ **10 years color and film integrity warranty\* when using Interpon 200 products**
  - excellent corrosion resistance and flexibility properties
- ✓ **technical and application support**
- ✓ **product support, and**
- ✓ **quality program implementation**

As part of the Program you will be supported by Australasia's leading powder coatings specialists. Manufactured in Australia, our products are specifically formulated for the Australian and New Zealand environments featuring high UV and color fade resistance, and high resistance to mechanical damage.

Carefully selected based on end use application, the suite of Interpon products offered in the Metaplex Commercial system have been chosen to provide maximum protection to your valuable assets.

Coating systems which significantly increase the life span of your valuable assets

### Interpon D2015 series

The Interpon D2015 Ultriva™ powder coatings range offers ultra durability and guaranteed performance. Excellent gloss retention and resistance to chalking are made possible using an innovative polymer system developed by AkzoNobel, while the careful selection of the most durable pigments ensures outstanding color stability.

TGIC and lead free, Interpon D product ranges offer unsurpassed application properties with excellent flow and appearance.

### Interpon 200 series

Interpon 200 polyurethane products with their excellent corrosion resistance and flexibility properties, lends itself ideally to protecting the lifespan of your coated components.

Exceptional resistance to mechanical damage makes Interpon 200 ideal for applications where long term durability and aesthetic performance are required. Typical end uses include: infrastructure components, agricultural equipment, transportation equipment and industrial components.

## Interpon Metaplex Commercial

### Becoming a Metaplex Commercial Accredited Applicator

An applicator is awarded Interpon Metaplex Commercial status once the requirements of the Interpon Steelplex™/ Metaplex Accredited Applicator manual and AS4506-2005 have been met and a Metaplex Applicator Agreement is entered into by both parties. This achievement is recognised by awarding an Interpon Metaplex Accredited Applicator certificate. This authorises the applicator to exclusively offer the Metaplex Commercial color and film integrity warranty\*<sup>3</sup> within the product and environmental category to which they are compliant.

Excellent corrosion resistance and flexibility properties

### Color and Film Integrity Warranty

Inclusion in the Interpon Metaplex Commercial program will allow the applicator to offer with complete confidence either a 10 or 15 year color and film integrity warranty\*<sup>3</sup> depending on topcoat selection.

NOTE: For the Metaplex Commercial Warranty to be supported by Interpon, the Approved Applicators must seek warranty application approval on a project by project basis from Interpon. Application warranties are subject to limitations and exclusions set out in the Metaplex Commercial Terms and Conditions.
